

KRENARE SYLA

Software Engineer

Houston, TX • 832-855-5958 • krenaresyla13@gmail.com • linkedin.com/in/krenaresyla

Professional Summary

Software Engineer with experience building scalable **backend** and **full-stack applications** using **Python, Django, React, PostgreSQL**, and **cloud infrastructure**. Hands-on experience developing **AI-enabled features** using **large language models (LLMs)**, **prompt engineering**, and **API-based integrations**, alongside designing **RESTful APIs** and **CI/CD pipelines**. Strong **problem-solving** and **communication skills**, with experience collaborating across teams to deliver reliable, maintainable, production-ready software.

Experience

Sam Management and Marketing INC

September 2023 – June 2025

Software Engineer

Houston, TX

- Developed and optimized backend services using Python, PostgreSQL, and Google Cloud, serving production workloads and improving system efficiency by 20%.
- Built and maintained RESTful API integrations with Wayfair, ShipStation, Amazon, and QuickBooks, automating high-volume order and accounting workflows and reducing manual processing by 35%.
- Engineered data pipelines and background jobs with CI/CD and cloud deployment for high-volume datasets.
- Designed and owned backend components and API workflows, contributing to scalable system architecture and long-term maintainability.
- Collaborated with cross-functional teams to improve system reliability using microservices and logging best practices.

Sam and M Group LLC

January 2023 – May 2023

Software Developer Intern

Stafford, TX

- Developed and maintained full-stack features using Django (Python) and React; assisted with backend improvements, database updates, third-party API integrations, and deployment on DigitalOcean.

North American University

August 2021 – December 2021

Computer Science Mentor

Houston, TX

- Provided academic support to 200+ undergraduate students, reinforcing Python programming, data structures, and algorithmic problem-solving.

Technical Skills

Languages & Frameworks: Python, Java, C, JavaScript, SQL, Django, React, FastAPI, Node.js

Databases & Cloud: PostgreSQL, MySQL, MongoDB, AWS, Google Cloud, DigitalOcean, Docker, CI/CD

Development & Project Tools: Git, Agile/Scrum, Jira, Monday.com, Odoo, REST APIs

Education

North American University

August 2025 – Present

M.S. in Computer Science (Software Engineering), GPA: 4.0

Houston, TX

North American University

August 2019 – May 2023

B.S. in Computer Science, Minor in Business Administration, GPA: 4.0 (Valedictorian)

Houston, TX

Projects

AI Teaching Assistant — *Personal Project* / Python, FastAPI, React, Gemini

- Built an AI-powered teaching assistant using Gemini LLM and prompt engineering, integrated a React frontend with a FastAPI backend for real-time responses, and deployed on AWS with scalable architecture.

E-commerce Website — *Bachelor's Thesis* / Django, React, PostgreSQL

- Developed a full-stack e-commerce platform as a senior capstone project, implementing RESTful APIs and deploying the application with Docker and CI/CD pipelines.
